

# PROJECT PROFILE

DB-49

## Client:

ARC IceSports & Entertainment  
7601 Lewisville Road, Suite 250  
McLean, Virginia 22102

## Objective:

Design and build, on a turnkey basis, a state-of-the-art ice arena with two National Hockey League regulation sized rinks, seating for 800 spectators, dressing rooms, changing areas, an arcade, and party rooms.

## Performance Results:

Work Commenced                      March 1998  
Work Completed                        December 1998

## Perspective:

BlueScope Construction was awarded a design-build contract on three ice arenas in three different cities. The 90,000 square foot facility featured two ice arenas with seating for up to 800 spectators, 13 pro-style dressing rooms, skate changing area, arcade and party rooms.

**Location:** ARC IceSports Arena
